

ROC-EDGE® STEEL CIRCULAR SAW BLADES

SPECIAL PURPOSE

Roc-Edge® Steel Circular Saw Blades are designed for many special applications and can be used to cut a variety of materials. Steel blades do not last as long or cut as fast as carbide tip saw blades, but are lower priced and can be resharpened by filing.

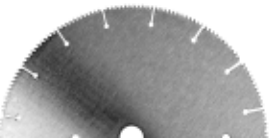

Vinyl Siding

DESCRIPTION	ITEM NO.	SIZE	TEETH	ARBOR	PRICE EACH
VINYL SIDING 	CB-VS-07186	7-1/4	186	5/8"-UNIV	\$ 3.00
	CB-VS-10248	10	248	5/8"	8.40
APPLICATION					
For cutting vinyl siding and light gauge aluminum. Teeth are not set for a smoother cut.					

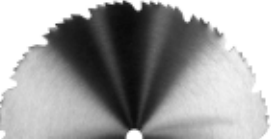

Steel Cutting

DESCRIPTION	ITEM NO.	SIZE	TEETH	ARBOR	PRICE EACH
METAL-STEEL 	CB-M-0700	7-1/4	16 Slots	5/8"-UNIV	\$ 5.00
APPLICATION					
For cutting by friction on sheet metal, metal studs, and corrugated steel roofing. Blades should be lubricated for best results.					

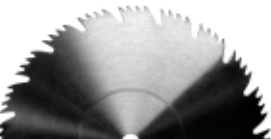

Aluminum Cutting

DESCRIPTION	ITEM NO.	SIZE	TEETH	ARBOR	PRICE EACH
ALUMINUM/PLASTICS 	CB-AL-07186	7-1/4	186 16 Slots	5/8"-UNIV	\$ 6.00
APPLICATION					
For cutting aluminum sheeting, tubing and other non-ferrous metals. Also used to cut plastics. Polished finish for less friction.					

Master Combination

DESCRIPTION	ITEM NO.	SIZE	TEETH	ARBOR	PRICE EACH
MASTER COMBINATION 	CB-MC-0760	7-1/4	60	5/8"-UNIV	\$ 5.44
	CB-MC-1080	10	80	5/8"	10.00
APPLICATION					
For fast, smooth crosscutting, ripping, and mitering in both hard and soft wood.					

Hollow Ground Planer

DESCRIPTION	ITEM NO.	SIZE	TEETH	ARBOR	PRICE EACH
HOLLOW GROUND PLANER 	CB-HGP-1080	10	80	5/8"	\$11.00
APPLICATION					
For satin smooth crosscutting, ripping, and mitering in all solid woods. Good for finish carpentry and cabinet work.					

Above prices are for bulk packaging. Blades can be carded for an additional 35¢ each.
